

4th Polifab User Meeting

Friday 21 February 2019

Building 25, Via Golgi 20 (Aule D, 2nd floor)

Dear Madam, dear Sir,

you are kindly invited to participate in the 4th Polifab User Meeting, planned on Friday 21 February 2019, at the second floor of the building 25 (Aule D, Via Golgi 20) of Politecnico di Milano.

In the meeting, the staff of Polifab will report on the state of the art and perspectives of the infrastructure, while the users will have the opportunity to present their activities and achievements. To stimulate the discussion and cross-fertilization among groups, a poster session is organized and users are invited to present one or more posters on their research performed at Polifab.

Last, but not least, we would like to promote a discussion, with current and potential users, on the strategic plan of development of Polifab. Users have the opportunity to describe technologies, processes, materials, and equipment that will be strategic to support their own research in the mid-term.

Schedule
