

# CO-CREATING HUMAN-CENTERED POLICIES - FOR A BETTER EUROPE

The pandemic has amplified already pressing economic, social, and environmental problems, challenging institutions and policymakers to find innovative solutions together with citizens. Join us at the SISCODE Final Conference and explore how to co-create and design the future through responsible, inclusive and innovative methods and get the chance to co-design a manifesto for future policymaking.

**WHEN:** May 3rd-7th, 2021

**WHAT:** A conference that will teach you how to co-create policies

**WHERE:** Zoom

**HOW:** Sign up on <https://bit.ly/2P1NIuC>

## PROGRAM

May 3, 2021 (9.30 am -12.30 pm)

### **Developing a culture of co-creation with citizens**

Explore key considerations around local experiments that make use of design methodologies for co-creation and their link to European policies.

May 4, 2021 (9.30 am -12.30 pm)

### **The power of empathy - design for policy**

Explore how policy-making can benefit from the practices and methodologies of design, dive into the power of empathy and experience concrete and thought-provoking examples from the field.

May 5, 2021 (9.30 am -12.30 pm)

### **Letting go of power - including everyone in the process**

Analyse how co-creation practices can become more equitable, inclusive and socially just. Delve into strategies and tools to ensure no one is left behind.

May 6, 2021 (9.30 am -12.30 pm)

### **Co-creation ecosystems: Enabling collaboration for sustainable cities**

We examine different co-creation cases in-depth with a focus on complexity, requirements, limits of co-creation as well as potential for social innovation and reference to the Urban Agenda for the EU.

May 7, 2021 (9.30 am -12.30 pm)

### **Co-creating a manifest for future policymaking**

Take part in co-creating a manifest that calls for responsible, inclusive and sustainable European policy-making practice based on co-creation with citizens.

This project has received funding from the European Union's Horizon 2020 Research and Innovation programme under grant agreement No 788217.
